Product Description

Bearcat CH5540 5-inch PTO Chipper

MAINTAIN POWER. REDUCE MAINTENANCE.

Using a Crary® Bear Cat® PTO machine reduces engine maintenance, giving you more uptime to work. With a wide selection of PTO machines ready to go to work for you, it's time to match your tractor with a Crary Bear Cat PTO Chipper and Chipper/Shredder.

If a 5-inch PTO Chipper is what you need, Crary® Bear Cat® has just the right machine for you. You choose the model based on your power requirements. If you have a utility tractor with a 540 rpm PTO, one of these is your pick.

Model CH5540 is equipped with a 20 x 1.25 inch, 140 pounds dynamically balanced steel disc with four reversible chipper blades, easy feeding with a big 28" x 28" feed hopper and 5.6" x 6.8" chipper throat opening that defies small side limbs, 360 degree rotating 6" discharge chute. The power source is category 1, 3-point hitch PTO.

NOTE – For Use On Tractors with PTO Horsepower Ratings From 25 hp to 45 hp

CE compliant model available.
